Mid-Level Full Stack Developer with 4+ years of experience in building scalable web applications and integrating AI-powered solutions. Proficient in Node.js and React, with hands-on expertise in AWS and cloud-native architectures. Skilled in deploying and integrating machine learning models, building e-commerce platforms, and developing AI-driven solutions. Strong problem-solving abilities, attention to detail, and experience collaborating in hybrid international teams.

Education

Bachelor's Degree
Necmettin Erbakan University, Konya
Full Stack Development Program
TechPro Education

Work Experience

Full Stack Developer Mar 2025 - Sept 2025
Sarfea, Ankara

Developed scalable cloud-native applications using Node.js, Express, and React. Integrated AI-driven features for personalized user experiences in e-commerce. Deployed and managed cloud services on AWS including Lambda, EC2, and S3. Collaborated in a hybrid international team, ensuring alignment across Turkey and the Netherlands. Built and maintained RESTful APIs and implemented secure authentication and authorization flows. Conducted code reviews, CI/CD pipeline setups, and optimized performance for cloud applications.

AI & E-commerce Project Developer Sept 2024 - Jan 2025
Freelance

- Implemented AI recommendation systems for fashion e-commerce platforms.
- Designed and deployed scalable frontend applications with React and Next.js.
- Developed backend services using Node.js, integrating machine learning models into web applications.
- Ensured seamless cloud deployment and maintenance of serverless architectures.

Skills

Frontend: React, Next.js, JavaScript, TypeScript,	
Backend: Node.js, Express.js, RESTful APIs	
Databases: PostgreSQL, MongoDB	
Cloud & DevOps: AWS (EC2, S3, Lambda)	
AI/ML Integration: AI implementation	
Other Tools: Git, Docker, Microservices, Agile	
JavaScript, React, Next.js	

Projects

Fashion Recommendation Platform

- Built a cloud-native e-commerce application integrating AI recommendation engine.

- Node.js backend with AWS deployment; React frontend with dynamic user interfaces.

Stock & Inventory Management Application

- Developed a full-stack application using React and Node.js for inventory tracking.
- Integrated AI-based predictive analytics for stock forecasting and recommendation.

Soft Skills

- Analytical Problem Solving
- Attention to Detail
- Team Collaboration & Remote/Hybrid Work
- Agile & Scrum Methodologies
- Communication in English across international teams
